

H339 SMP PATENTED

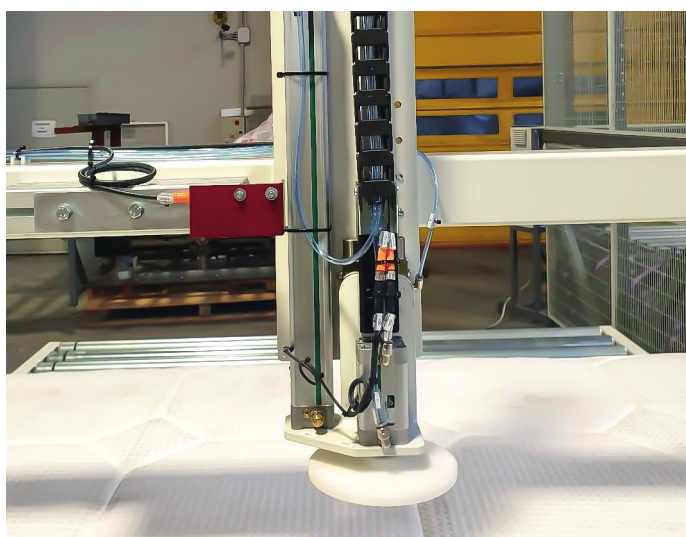

**THE MACHINE YOU DON'T HAVE YET
TO CHECK, CERTIFY, AND ENHANCE YOUR MATTRESSES!**

■ **Mattress dimensional control station, equipped with a roller conveyor, that can be used independently or included into a production line.**

■ **Touch screen control panel where all the functions and values detected during the objective and comparative checks are highlighted.**

■ **Probe for load-bearing capacity testing (automatic multi-zone detection on request).**

■ **Customizable printer, ideal for inserting the data detected by the H339 SMP into pre-defined fields, on adhesive labels or cardboard.**

**To celebrate our 70 years of activity,
we will periodically offer spare parts kits and machines
at particularly advantageous purchase conditions.**
